We highly recommend our Ciders for family use, better than well water, buy it by the gallon.

All kinds Pipes, Tobaccos, Cigars and Cigarettes Quality and Service of the Best.

## Archie Johnston

The Oyen Billiard Hall

## Britain's Expenses Reach Huge Total

London. — A question asked in the house of commons brought forth a statement from J. Austen Chamberlain, chancellor of the exchequer, that the average expenditure of the country during the period from April 1 to July 26, was nearly £45,000,000.

Sir Laming Worthington Evans, minister of pensions, in giving the house an explanation on the pension situation, said that at the present rate the pensions would amount to £96,000,000 sterling in a full year.

Sir Laming announced a new scale of pensions for totally disabled single men of 40 shillings weekly, and for married men, 50 shillings weekly, being an increase respectively of 7 and 17 shillings on the previous scale. Proportionate increases, Sir Laming declared, were to be given for children, widows and other dependents of soldiers.

### Norway May Have Spitzbergen

Russia is willing that Spitzbergen in Arctic be given to neutrals.

Paris. — The Russian political commission in Paris has decided the peace conference which is considering the disposition of the Spitzbergen Archipelago, which lies in the Arctic ocean between France, Iceland and Greenland, that the Russians are willing to have Spitzbergen given to Norway. The belief is expressed by the Russians, however, that it will be necessary to have an international convention for the purpose of protecting the rights of various nations having property there.

London Cheered Great Drift. — The plant British drift-able R-34, which landed at Pulham, Norfolk, on July 13, after making the first trans-Atlantic drift-able flight, left there for East Fortune, Scotland, the point from which it started for the United States.

The R-34 circled over London at a low altitude during the trip, and was seen and cheered by excited crowds.

## Government Plan For Marketing Crop

Ottawa. — The government has finally determined its policy in regard to this year's wheat crop. The main features of the plan are:

1. A board to buy and market the crop of 1919.
  2. A cash payment on account to be made to the farmer at the time he sells his wheat.
  3. The wheat crop of Canada to be sold by the board at the prevailing world prices, and the proceeds, after expenses are deducted, to be distributed to the original sellers of the wheat in proportion to grade and quantity.
  4. No speculation on exchanges of profiteering by handlers of the wheat crop of 1919 to the disadvantage of either producer or consumer.
  5. A direct and immediate cash sale by the farmer and a speedy movement of the crop along the usual channels of transport.
- The personnel of the board will be made known very shortly, as also will the initial cash payment to be made on account to the farmer at the time of the sale of his wheat.
- The official statement reads: The peculiar conditions of the wheat market in Europe and the U.S. where government agencies are almost exclusively employed and where government credits have to be provided for the purchase of wheat rendered it necessary to provide a similar agency in Canada, or to run the risk of being forced to purchase of adequate cash markets for Canadian wheat and a speedy and uniform movement of the same.
- The government, after very careful enquiry and consideration, has therefore decided to appoint a board of experienced men invested with adequate powers to conduct the purchase and sale of the Canadian wheat crop of 1919, both for export and domestic purposes.
- An additional cash payment by way of advance will be made by the board to the farmers for each bushel sold, based on the price of No. 1 northern farmers' at Port William. At the conclusion of the season's sales, after the deduction of necessary expenses, the total excess realized over the advance first payment paid to the farmers will be divided among the orig-

### To Save German Navy

Ready to be Salvaged from Deep Sea Says British First Lord of Admiralty.

London. — The battleship, three light cruisers and fifteen destroyers of the former German grand navy, which were scuttled by their crews at Scapa Flow in the Orkney Islands on June 22, are ready to be salvaged, it was said in the house of commons by Walter Hume Long, first lord of the admiralty.

Mr. Long said work was proceeding on three other destroyers. He said there was no intention of holding a court of enquiry.

### American Record for Aerial Height

Minneapolis. — Although failing to establish a world's altitude record, Ronald Raab, civilian aviator flying Curtiss wax bi-plane, set a new American mark when, in an official flight from Roosevelt field, he reached a height of 30,700 feet, according to the figures on his barograph. The world's record is 33,136 feet, made by Lieutenant Col. Joseph K. Stinson in a flight from Villa Coublay last June.

### Peace Proposals Not Given Lenin

London. — Assertions by Liberal papers that Sir Philip Kerr, secretary to Premier Lloyd George, had given a memorandum of peace proposals to the Bolshevik Premier, Lenin, to Wm. C. Bullitt, attached to the United States peace delegation and the playing of the hour of commons by Andrew Bonar Law, government leader, with a denial.

Mr. Bonar Law said that Mr. Lloyd George had not given the Bolshevik mission to Russia until Bullitt returned and he denied that the British premier had given Bullitt any such memorandum.

If you can't do anything else, they'll at least keep out of the other fellow's way.

## Tornado Swept New Brunswick

Considerable Damage Done to Buildings and Wire Service by Wind.

Fredericton, N.B. — Considerable damage has been done by an electrical storm and wind, which swept over New Brunswick and reached the proportions of a tornado.

In Carleton county, at Florenceville and Centerville, eleven barns were razed by the tornado, while at East Florence, the warehouse of B. Smith and Company, Limited, a building about 100 feet in length, was smashed and blown to bits. Pitches or twenty trees in its path were uprooted and telegraph, telephone and electric light poles were blown over by the tornado, which swept over a territory about a quarter of a mile in width and cleared everything before it.

In a number of cases it is declared that loaded hay wagons which had been left standing in barns with the doors open, were lifted bodily and carried along by the tornado, driving hay wagons smashing and the hay scattered about.

### Marshal Foch Welcomed

Gathering in London to Honor Great French General and Present Sword.

London. — Marshal Foch was given a most enthusiastic welcome by the city of London when, accompanied by General Wyndham and other distinguished French gentlemen, he drove in the state carriage from the Carlton hotel to the Guildhall to receive the honorary freedom of the city. The streets were lined with people who had gathered to welcome the great French general. General Foch was received with loud and prolonged cheering and the playing of the national anthem when he entered the Guildhall, where a large and distinguished company, including Field Marshal Sir Henry Wilson, Right Hon. Winston Churchill, Right Hon. Messrs. Long and Barnes, and other members of the government were assembled.

The address conferring the freedom of the city described General Foch as a heroic general, a model for future generations of soldiers, and paid tribute to his brilliant part in the war. His stern sense of duty, patriotism and supreme knowledge of the science of war were commended.

Acknowledging the freedom of the city and the sword of honor, Marshal Foch, speaking in French, paid a tribute to the valor of the British soldiers, the skill of the British generals, especially General Haig, and also the wonderful work of the industrial classes of Great Britain in providing the allies with abundant guns and munitions.

Dealing with the great German offensive of 1918, he remarked that the British armies, though very exhausted, fought as bravely as ever. He said that the German army had been utterly defeated.

He paid eloquent tribute to the magnificent qualities of the British army, and to the tradition of the British army, which he said was the counter-attack after August 1918, and said that their dash and bravery were unsurpassable. They never stopped until the German army was annihilated and would have gone through the Meuse or the Rhine but for the armistice. (Loud cheers.)

### Congress Is Peeved

Say Treaty With France Calls On U.S. to Step in Without Their Consent.

Washington. — The peace treaty with Germany was discussed by President Wilson with four more Republican senators, all of whom were understood to be unwilling to accept the League of Nations in its present form.

Both the senate and the committee had recessed over today and many senators went over for the first time the official text of the treaty with France, submitted for ratification by President Wilson. Although most of them reserved judgment, it became apparent that the treaty as presented would be bitterly contested.

Two objections about which debate is expected to centre are that the treaty demands that the United States go to the aid of France in the event of a war with Germany, and that it violates the constitutional provision that congress alone can declare war. Those who have their opposition to the latter ground declare that by promise to go to the aid of France immediately in case of an unprovoked attack on France, the constitution is violated. It is expected that future congresses would be deprived of their power to decide for war or peace whenever the treaty terms were invoked.

## Proof Of Seditious Conspiracy

Letters Believed During Police Raids In Western Canada.

Winnipeg. — The Calgary Labor convention last March, at which the One Big Union was given form, was packed with "reds," it is alleged by the Socialist party of Canada are known in labor.

An official of the United Mine Workers of America, a letter suggested that "the only way we will ever get anywhere is by the use of force, and that the riots and petty little revolutions here and there all over the country. In mentioning the proposed demonstration in Toronto of 10,000 unemployed the writer said he thought that if these things could be organized to start in every town, city and village at one time, with a definite object in view of taking over the reins of government, "We would arrive at it."

R. B. Russell saw in the coming unemployment situation a "glorious opportunity to show the 'plugs' that the only solution to the question is the situation in Russia."

A veritable flood of propaganda, in the form of letters, articles, and pamphlets, was distributed by R. B. Russell and other members of the Socialist Party.

This is the substance of letters seized by the R.N.W.M.P. in Vancouver, Edmonton, Calgary and Regina, and in court at the preliminary hearing of eight Labor leaders for seditious conspiracy.

## Race Riots In Chicago

State Troops Established A Barred Zone About Three Miles Square.

Chicago. — Chicago streets are being patrolled by soldiers called out by Governor Lowden at the request of Mayor Thompson for the protection of life and property threatened by the race war, which for some days has terrorized the city.

The State troops established a barred zone about three miles square, embracing most of the colored residential district on the south side. In this zone they searched every person who they met for weapons. No one could pass in or out without military permission. The district extended from 122nd street to 135th Street, north and south, and from 10th street to 12th street, west. This happened when riots in the colored district itself had somewhat subsided, when there was an alarm spread of disturbances outside. New York Central railroad officials reported all their trains being held up.

Adjutant General Dickson, after an early evening trip through the threatened district, declared the situation was ominous, and his view was shared by the mayor's secretary, who accompanied him.

Hundreds of negroes appealed for protection. An incendiary attack on negro homes increased through the day and night. Negro leaders declared that the many members of their race fled from the city because of the supply wagons feared to enter some parts of the black belt.

## Demand For Harvest Help

Government Agent Says Men Hung Back From Harvest Work For Higher Pay.

Winnipeg. — Too many unemployed men are hanging back in the hope of getting \$6 a day for harvest work, and having to work only two-thirds of the time for their money, was the declaration of J. A. Bowman, superintendent for the province of the employment service of Canada, when discussing the question of farm help. He expressed the belief that the \$6 mark would not be approached, and that the men would be disappointed.

"If any relief assistance is offered next winter the first question should be, 'Did you respond to the appeal for farm help?'" He added that the returned men were prominent among the workers being sent to farms by the government.

Crop failures in parts of Saskatchewan have released men for work in Manitoba, said Mr. Bowman. On Thursday he was contacted by arrangements for the distribution of 400 to 600 men for that province. Approximately 10,000 workers are required for the harvest in the fields of Manitoba and Saskatchewan.

### Victory Loan Success.

London. — The recent British victory loan scheme announced in the £47,500,000, it was announced in the house of commons by J. Austen Chamberlain, chancellor of the exchequer. This exceeds the amount previously announced by £3,900,000.

Thoughts travel fast, but some people's thoughts never travel far.

## Industrial Unrest Menaces Britain

### Bulgarians Seek Easy Terms

Hope That the Way May Be Made Pleasant for Them.

Sofia. — A new atmosphere of uneasiness and uncertainty is discernible here with regard to the outcome of the mission in Paris of the Bulgarian peace delegates. Bulgarian claims to the Dobruja and her aspirations as to Macedonia are still to the fore in discussion of the peace terms, and despite the hints of possible territorial losses, which have caused concern and brought out some bitter comment, there appears to be a general hope that justice, as it is viewed here, will be done. Bulgaria in this respect, and that the question at issue will be determined independently of her participation in the war on the side opposed to the allies.

Prominent spokesmen among the Bulgarians having given expression of strong desires to see peace brought about by some visit to the capital to Paris, together with the hope as one of them said, that the terms would be "something that we could swallow." These expressions, both Great Britain and the United States are alluded to as friendly, but the belief in this friendship is varied.

There are certain, too, previous utterances indicating dislike of the French are freely heard in the capital, though may be explained as the presence of French colonial troops there.

### Yorkshire Miners Ignore Leaders

For the Moment the Deadlock Is Complete.

London. — Failure of the attempt made at Leeds in a conference of coal miners and their employers to end the coal strike, which has been in progress for some time, caused a sense of despair and disappointment. The leaders of the miners refused to accept the government's formula, to bring an end to the strike by the action of the miners' federations, and the employers refused to accept the government's formula, to bring an end to the strike by the action of the miners' federations, and the employers refused to accept the government's formula, to bring an end to the strike by the action of the miners' federations.

Therefore, for the moment, the deadlock is complete. No arrangement has been made for the resumption of the conference as far as is known and the outlook is regarded as serious.

## French Bond Sale

Amount of Issue in View Totals \$30,000,000.

Paris. — Louis Klotz, the minister of finance, has just concluded an arrangement with a group of United States bankers headed by J. P. Morgan & Co. to furnish the New York market of French treasury bonds at sixty and ninety days, similar to the British bond now on the market.

The amount of the issue in view at present totals \$30,000,000. The United States treasury department, it is said, was consulted regarding the arrangement and gave its consent to it.

U.S. Submarine and Two Men Lost. — New London, Conn. — The U.S. submarine G-2, which is listed as an obsolete craft and used for experimental work, sank with open hatch in Long Island Sound, off Measuring beach in Waterford Bay and two of its crew of eight were drowned. The other members of the crew, all of which were from the submarine base, were rescued.

## Peace Will Be Ratified This Month

### Germans Buying Copper.

New York. — Moderate quantities of refined copper have been bought for German manufacturing interests, one of the leading selling agencies here announced. Shipments have already been made and are expected to be larger proportions. The financial arrangement connected with the purchase of the metal are not disclosed.

### Women Get Vote.

Helena, Mont. — The Montana state senate has ratified the federal suffrage amendment to the constitution of the country that women have the right to vote by a vote of 38 to 1. The house unanimously ratified the amendment.

### General Industrial Unrest

London. — General industrial unrest in Great Britain, which has been settling over since the armistice, seems at the present hour to have reached a point which menaces the peace of the country with at least temporary disaster. It is much the downfall of the Lloyd George government.

An immediate strike of the London police was decided on tonight at a meeting held in various places. The grievance of the police is the bill before parliament reorganizing the department. This provides for the organization of a police union, but prohibits it from affiliating with labor unions and prohibits policemen from going out on strike under any circumstances.

The strikes of the past month have been serious enough, but they are not so symptomatic of the disintegration of the country as the fact that it appears to prevail throughout the ranks of organized labor. Half a million Lancashire cotton operatives are idle for more than three weeks. Two hundred thousand Yorkshire miners have been on strike since July 20. The Liverpool dockers have paralyzed shipping there for two weeks, holding up hundreds of ships of all sizes. The bakers are taking a general strike on Saturday and now the London police are about to go on their second strike.

The worst movement of all from the government's standpoint is the threat of "direct action" by the triple alliance of railwaymen, miners and transport workers. These powerful unions are taking a general ballot to decide whether they shall use the weapon of a general strike to try to force the government to accept the nationalization of the mines and railways and to end conscription and withdrawal from all participation in all Russian affairs.

In these circumstances, words of revolution and Bolshevism crop up in the newspapers and are used by conservative men to describe the present movement. Some of the newspapers are asking where the money comes from to finance all the proposals being put forth.

The government regards the police as the backbone of the state, and of the prevalent unrest. It may have a crucial test of the labor campaign. The home secretary, Mr. Shortt, has declared that the government is firm and will consider no compromise, or yielding the police to the demands to have the status of an ordinary labor union.

## New Dominion Loan

Sir Thomas White Says Last Victory Loan Was a Sale Crop.

Ottawa. — Sir Thomas White states that since September last credits to Great Britain aggregating \$100,000,000 have been furnished by the government for the purchase of last year's wheat crop. In addition about \$25,000,000 had been supplied for the purchase of other products and over \$12,000,000 for timber.

It was last year's Victory loan which enabled Canada to give the extension credit necessary for the purchase of these products, upon whose sale the prosperity of the entire Dominion, agricultural, industrial, commercial and financial, so largely depends. The success of the Dominion loan this fall is regarded as of vital importance to Canada, to enable her to meet demobilization expenses and also to provide in part the money for the sale of our wheat and other products.

It isn't the frame that matters; it's the picture within it.

## Southern Alberta Stockmen asked not to Sacrifice Their Stock.

The Department of Agriculture has appointed John Glendinning to receive cattle of consignors in Southern Alberta and dispose of them at the Calgary Stock Yards and make returns to consignors as is done by regular commission merchants. This is to check the sale of stock to speculative buyers who are gambling the country in which the people are suffering most from drought.

Owners of cattle are warned by the Govt. that there is no need of sacrificing cattle stock at prices which some of it is being sold for at present. The open stock yards at Calgary and Edmonton are absorbing all stock at a fair price at present. Farmers in Central and Northern Alberta are sending in orders for stock and the consigning of stock to central markets is the right method of selling. It involves the least expense to the consignor and likewise the least expense to the purchaser. The farmers of Can. and Nor. Alberta can nearly all stand increases to their cattle stock. In addition to the demand there will be no less than four thousand head of cattle purchased under the Live Stock Encouragement Act during the next two months. It is desirable that these not be offered all at once but should be moved into the market gradually. The kind of stock most desirable is yearling and two year old heifers with a limited number of dairy cows. Shippers who wish their stock to be handled by the department should consign direct to Mr. John Glendinning at Calgary. It may be consigned likewise to any of the regular commission firms at Calgary or Edmonton.

The Live Stock Commissioner at Edmonton should be notified of the making of shipments in order to have forward purchasers who are getting cattle under the provisions of the Live Stock Encouragement Act.

## Settlers from U. S. show increase during June.

During the month of June there entered Western Canada from the United States 2,929 persons with cash \$1,214,050, effects \$110,000. Last year 1,237 persons with cash \$801,000; effects \$100,024. Nationality: British, 72; Canadian, 87; American, 1,085; Russian 15; Scandinavian, 118; others 42. Their occupations were: Farmers, 661; farm and other labourers, 151; mechanics 92; railroaders, 57; clerks 50; domestics 31; miners 0; professional, 53; women and children, 817; not classified 99.

Mr. and Mrs. J. McNamara of Excel are spending his week at Banff.

Buy War Saving Stamps. The success of business depends much on the "drive and push" you put into it. Continual efforts count. Spasmodic hurries soon expire and he who relinquishes his grasp a particle will lose more in a month than three months booming will make up. Keep things moving and judicious advertising will do it, and we offer you the Oyen News as the best medium in the country.

A woman was once kicked on the chin by a mule, causing her to bite off the end of her tongue and her husband several times refused the offer of \$1,000 for the mule.

At a recent meeting of the M. D. of Golden Centre a resolution was passed granting \$100 to the Oyen hospital.

## A little capital

"IF ONLY I had a little capital, look where I might have been to-day"

Are you going to be one of the men who say that after you have passed middle age, or are you going to be one of those who "got there" because you had that "little capital" when your chance came?

Most big business concerns and large fortunes had small beginnings.

The men who accomplish things are not the idle rich but the ambitious, industrious men, rich or poor.

A little money saved each week and deposited in the Bank of Toronto can be the beginning of your life venture. With the interest it earns it does not take long to accumulate capital sufficient for a start. The more you have for your beginning, the surer is your success.

We invite your banking account.

B. E. KELLY

Manager.

## Good Roads A Necessity

Canada, and especially that greater and new Canada comprised within the three Prairie Provinces, of the West, have numerous problems to work out in order to promote the development of our great natural resources, encourage immigration and permanent settlement on the land, ensure the prosperity and comfort of the people, and attract visitors from all parts of the world. To solve these many problems will require patience, courage and capacity on the part of Governments, municipalities and people, as well as large annual expenditures of money.

It is important, therefore, that all works inaugurated should, as far as possible, be of a permanent character, well planned, scientifically constructed, and their upkeep and efficiency maintained. In this article it is not the intention to deal with more than one of these many and diversified problems. Some people may think the creation of good roads is not the most pressing of Western problems, but few, if any, will deny its importance.

During the past half century Canada has been busy building railways, an enormous and burdensome task in view of the magnificent stretches of territory that had to be covered, with great barren spots like the north shore of Lake Superior and the mountains of British Columbia to be bridged, with many and great rivers to be spanned, and with but a small population to bear the expense and provide traffic for the completed lines. It is not to the discredit of Canada, therefore, that in this Dominion less attention and money has been devoted to good road building than is true of other countries.

With the advent of the automobile, and its general adoption for both passenger and freight carrying purposes within the past two decades, a revolution has been worked in the primary means of transport, and what was regarded as a good road a few years ago will not, under modern conditions of automobile traffic, stand the strain. The time has come, therefore, when the people of Western Canada must face the necessity and the expenditure involved in abundant conditions of automobile traffic, stand the strain. The time has come, therefore, when the people of Western Canada must face the necessity and the expenditure involved in abundant conditions of automobile traffic, stand the strain.

The magnitude of the task may be judged from a few Saskatchewan figures. There are over 200,000 miles of road in that Province. A Government survey of the Province has established the fact that there is little stone available for crushing to be used as macadam; suitable sand and gravel deposits are few and far removed in most cases from where it would be required in road construction. On the other hand, Saskatchewan has now over 1,000 licensed automobiles, and the number is increasing every week, fully two-thirds of which are owned by farmers. The Provincial revenue from license fees

totals from \$750,000 to one million dollars a year. The situation in Saskatchewan is proportionately true of the other Western Provinces.

The automobile is no longer a luxury but a necessity, but its value to the farming community of the West depends largely on good roads. The old-style dirt road will not suffice. After a rain they are useless and the automobile is tied up. In winter they frequently become impassable. Permanent roads would be available rain or shine, while in winter, with our comparatively light fall of fine, dry snow, the roads generally would be swept clean by the winds.

Then there is the saving of time, gasoline consumption, wear and tear which comes with good roads. The problem of getting to market for supplies and repairs, and from the farm to market with produce, is essentially a farmer's problem. In many cases his success in solving it determines the amount of his year's profits. A large motor truck manufacturing concern in the United States recently made a series of tests to determine just how much gasoline and time was wasted during a trip over unimproved highways. A two-ton truck started under capacity load. It traveled ten miles—about the distance "to town"—and back again. It was over an average country road with dirt, sand and gravel predominating. During this ten-mile trip, two gallons and one-half pint of gasoline were consumed. But in covering the same distance over hard-surfaced roads, the motor required only one gallon and one quart, a saving of almost a gallon. It also took 20 minutes less time to make the trip over the unimproved road. Multiply this saving by the number of trips made during a season, and it is easy to see how good roads regulate the farmer's bank balance. It ought to be sufficient to convert every Western Canadian into an enthusiastic good roads booster.

**Goodbye to Ashtina**—Persons suffering from that extremely trying trouble known as Ashtina know what a relief it is to get rid of it. It would appear that every line of labor is open to women. They are now seen on the wharves in this city as gilt-edged poolers, and also as a trip to the fishing grounds, the girls' names are to be dried, and these reels are so arranged that the reels lie across them and are wound up. The girls will hold a great many new and are ready for use again in 24 hours. Women are now seen on the wharves in this city as gilt-edged poolers, and also as a trip to the fishing grounds, the girls' names are to be dried, and these reels are so arranged that the reels lie across them and are wound up. The girls will hold a great many new and are ready for use again in 24 hours. Women are now seen on the wharves in this city as gilt-edged poolers, and also as a trip to the fishing grounds, the girls' names are to be dried, and these reels are so arranged that the reels lie across them and are wound up. The girls will hold a great many new and are ready for use again in 24 hours.

## Beast Of Mystery

For London Zoo

Combines Traits of the Horse, Giraffe and Zebra

London—Europe is to have a real live animal for its very own. The mysterious animal, which combines the traits of the horse, the giraffe and the zebra, is on its way to London Zoo. The first European to get a glimpse of the elusive creature is said to have been Mr. Jeannette, a young Swiss in the service of the Congo State, who was supervising road work in the Congo, but only being wounded, the ox had made its escape back into the Congo forest.

Sir Harry Johnston, administrator of the Uganda protectorate, devoted much time to the search for it. He entered the Congo forest, but the atmosphere was unbearable, owing to the swamps and the smell of decaying animal and vegetable matter in the heart of the tropics. The expedition had to turn back without the ox.

"Pat, here's the dollar I borrowed of ye last week," said the old man. "I forgot all about it."

"Och, who the devil didn't ye say so?"

It is a good thing for some people that the necessities of life do not include brains.

## The Iron Road In The Wilderness

Another Example of Eastern Conservatism as Invaded by Occidental Ideas

In laying the last tie in its railway link connecting Jerusalem and Suez, the British Government admittedly has, of course, not exhausted the possibilities of obtaining speedy passage over this historic wilderness. When an aeroplane undertakes to soar from Mecca to the isthmus, as will inevitably soon be the case, the reckoning in days may well be reduced to a matter of hours; yet even the time required—approximately five days—is shorter than was ever hoped for in the days when caravans alone plied the desert fastnesses of Sinai. There is another example of eastern conservatism as invaded by occidental ideas—a land of natural barriers, difficult to surmount in the twentieth century as in the time of Moses, has awaited the latter-day Aryan and his trained steed, Steam, before yielding to the demands of progress.

## BABY'S GREAT DANGER DURING HOT WEATHER

More little ones die during the hot weather than at any other time of the year. Diarrhoea, dysentery, cholera and other stomach troubles come without warning, and when a medicine is not at hand, the child promptly the short day too frequently. Baby's Own Tablets should always be kept in the house where there are children. An occasional dose of the Tablets will relieve the most annoying troubles, or if the trouble comes suddenly the prompt use of the Tablets will relieve the most annoying troubles, or if the trouble comes suddenly the prompt use of the Tablets will relieve the most annoying troubles.

## Women Work On Nets

Receive 50 Cents for Each Spread on Reel

Portland, Maine.—It would appear that every line of labor is open to women. They are now seen on the wharves in this city as gilt-edged poolers, and also as a trip to the fishing grounds, the girls' names are to be dried, and these reels are so arranged that the reels lie across them and are wound up. The girls will hold a great many new and are ready for use again in 24 hours. Women are now seen on the wharves in this city as gilt-edged poolers, and also as a trip to the fishing grounds, the girls' names are to be dried, and these reels are so arranged that the reels lie across them and are wound up. The girls will hold a great many new and are ready for use again in 24 hours.

No one need endure the agony of corns with Holloway's Corn Cure at hand to remove them.

## Farm Loans in Saskatchewan

Farmers in Saskatchewan located in all parts of the province have loaned \$250,000 by the Saskatchewan Farm Loans Board since it started operations in the summer of 1917. In these loans more than 1,500 farmers, many living in newly settled districts where the mortgage companies are scarce, have participated. The money derived from the loans is being used for breaking land, erecting buildings, and securing livestock.

Sleep is the great necessity of infancy and without peaceful sleep the child will not thrive. This cannot be got if the infant be troubled with worms. Miller's Worm Powders will destroy worms and drive them from the system, and afterwards the child's rest will be undisturbed. The powders cannot injure the most delicate babies, and there is nothing so effective for restoring the health of a worm-infested infant.

## Will Resume Trade With Germany

Canadian Trade Mission States That License Has Been Issued.

Ottawa.—Trade with Germany and German-Austria is now allowed, and cablegrams recently received from the Canadian Trade Mission in London, states that a license permitting trade with the enemy has been issued by Great Britain and that all goods not on the conservation list are allowed to be shipped without judicial export licenses. Information comes at the same time from the Trade Commission at Washington, to the effect that a general enemy trade license is being issued in the United States, Government enabling "all persons to communicate and trade with persons residing in Germany. Hungarians, Bolsheviks and Persians are not included in the permission.

Water of the brain is seldom due to a thirst for knowledge.

## City Of Orphans Is Being Founded

Will Be Inhabited By Syrian Children Left Destitute By Turkish Massacres

New York.—The City of Orphans is the name of a town in Syria, which will be inhabited by the Syrian children left destitute by the Turkish massacres and the ravages of war. Already the children are being brought together in temporary orphanages by the American committee for relief in the Near East.

Bayard Dodge, who recently returned from six years of relief work in Syria, said that even if the best and wealthiest government in the world took over Syria, it could not care for the orphans properly, since this is not so much a matter of relief as of reconstruction.

"The true horror of the famine in Syria," he said, "has been the moral breakdown. The horror of having thousands of neglected children growing up without homes or education, the victims of a demoralized environment, is awful to contemplate. In the small area of Syria for which I compiled statistics there are 349 villages, with 4,364 orphans and 9,688 children with only one parent."

Mr. Dodge outlined the plan of Dr. Stanley White and Maj. James H. Nichol, who have been in charge of local relief work by the Red Cross and the Near East committee. They intend to train a number of native children as farmers, mechanics, clerks, artisans, and industrial laborers, thus forming a nucleus for further educational work in the generation upon which will fall the responsibility of creating a new nation.

As far as possible the children will be trained as Syrians. The American influence will be strong enough to produce efficient managers and idealists, but not so strong as to breed dissatisfaction or lack of patriotism. The committee in Beirut hopes to limit the number of children to 5,000, to group them into small families with self-government, to teach them useful trades, and to bring representatives of different sects together.

A site will be chosen for the City of Orphans, small houses will be built so that they may be ready after 10 or 15 years, and American child experts, physicians and teachers will observe and direct the work.

Turned to Account  
Sib, (overjoyed): "Sir, I understand you said I had a face that would stop a clock."

He (calmly): "So I did. Any well-regulated clock would pause and hold up its hands in admiration at the sight of your lovely face."

## Rights Of Provincies

Three Important Test Cases Are Before Privy Council.

London.—Three petitions for leave to appeal involving important questions as to the constitution of Manitoba, Saskatchewan and Ontario are intra vires of the provinces were before the privy council. Before counsel opened their submissions, Lord Haldane intimated on behalf of the privy council that their lordships were prepared to grant relief and expressed the desire that all three appeals be consolidated and only one set of arguments be heard. Counsel promised to arrange this.

## Always

"Edith is one of those girls whose interest in a man is governed by his wealth."

"I see; the greater the principal the greater the interest."

With some men swearing off is a continuous performance.

## CURES A COLD QUICK AS WINK!

Easy as Rolling Off a Log to Stop a Cough or Cold With "CATARRHOZONE"

No more medicine for the stomach that isn't where your cold is lodged. Just breathe in the healing vapor of Catarrhazone—a soothing, healing medication that acts instantly. Colds, sore throats, and catarrhs follow like a shadow before Catarrhazone.

Every cough that is congested is healed. Irritation is soothed away, phlegm and secretions are cleaned out, and all symptoms of cold and catarrhs are cured. Nothing so quick, so sure, so pleasant as Catarrhazone. Beware of dangerous substitutes. We want to deceive you for genuine Catarrhazone, large size, which lasts two months, price \$1.00; small size, 50c; single size, 25c.

FOR the Gillette owner, life is one long holiday from stropping and honing. It is a round of daily luxurious shaves. The shaving quality of the hard-tempered, keen and lasting Gillette Blade is a never failing source of satisfaction.

You, who are planning a vacation, should include one pleasure you can enjoy twelve months each year—buy a Gillette Safety Razor. Free your holiday from strops and hones.

The new Kit Set—the Pocket Edition Gillette Safety Razor—in a limpleather roll case, complete with twelve double-edged blades and a mirror, takes only a few inches of space in your kit.

Remember how the Gillette was the choice of the soldiers of all the Allied armies. You will need a Gillette to remove your open-air growth of beard.

THE PRICE IS \$5.00

## Clear the Skin

A beautiful complexion is the outward mark of good blood and a healthy body. When the stomach, liver and blood are in good order, the skin is clear and lovely. Unsightly blotches, pimples, eruptions and sallowness show the need of Beecham's Pills to stimulate and regulate the vital organs and improve the circulation. Good health and better looks show the use of

## Work On Stockyards

Alberta Company to Spend \$300,000 on Yards at Calgary.

J. M. Cameron, president of the Alberta Stockyards company, has announced that the company has started improvements in the yards, and on the erection of a modern office building, and will spend this year between \$250,000 and \$300,000.

The yards will be extended and new pens erected, and all the work done will be strictly modern and up-to-date. The yards will be paved and sewerage put in, and the other portion of the yards will be modernized as far as possible.

## TIGHT MONEY PINCHING MANY

Thousands more are being squeezed by aching costs which can be cured quickly with Putnam's Corn Extract. Being free from caustics, Putnam's is painless. Use successively for fifty years. Use no other, 25c at all dealers.

## Diplomacy

This story is credited to John Burroughs: "The Germans are the trickiest people in the world. A German at a dinner party took in a lady whose name he didn't catch. During the fish course she saw a man who showed him up the week before in a crooked business deal, and he muttered to the lady, ferociously: 'Do you see that man to the left of the spearg? Well, if there's one man on earth I hate, it's him.'"

"Why," said the lady, he's my husband."

"Yes, of course," said the German. "That's why I hate him."

Investigate Arrest of Hon. W. Scott. Ottawa.—Sir Robert Borden, it is understood, is communicating with the British embassy in Washington requesting that enquiry be held into the arrest of Hon. Walter Scott, ex-premier of Saskatchewan, by a United States immigration official. Mr. Scott has protested to the prime minister against the arrest and is being released.

## CHILDREN NEED HELP

Spanking doesn't cure bed-wetting—the trouble is due to weakness of the internal organs. My successful home treatment will be found in my book. Send no money, but write me today. My treatment is equally successful for adults, troubled with urinary difficulties.

#### Oyen Lodge of I. O. O. F. Install New Officers

At a recent meeting of the Oyen Lodge No. 133 of the Independent Order of Oddfellows the following officers were installed: Noble Grand, Dr. J. P. Kerr; Vice Grand, D. McKay; Recording Secretary, R. Smith; Financial Secretary, W. Owens; Treasurer, M. T. Briggs.

The installation ceremony was performed by J. W. Crockett, District Deputy Grand Master.

#### A Gallant Soldier

Lieut.-Gen. A. W. Currie Referred to General J. G. Heffernan's Record

To have Lieut-General A. W. Currie, commanding the Canadian Corps, testify to the excellent service he rendered through the war is the honor which was awarded Pte. J. G. Heffernan of Spennymoor member of the 50th Infantry Battalion. Writing to Miss Rose McNamee at Westbourne Park, London Eng., Gen. Currie, after referring to Pte. Heffernan's record said "The splendid example of such gallant soldiers as Pte. Heffernan is an inspiration to all their comrades and a powerful factor in securing victory. I hope that good fortune may ever attend him."

Pte. Heffernan took part in many of the great battles of the war, including Lens, Arras, Valenciennes, Amiens and Passchendaele. Pte. Heffernan enlisted in Calgary three years ago with the 175th Battalion.

#### A CONFESSION

Our wife is gone. Gone back to the old home and the real dream. Back to the cotton bucket and the mud pies of memory. We are not saying this to make other men envious whose wives are not gone. But is a sort of a whistle to keep up courage. Now with no restraint on our conduct, no fearful wifely waiting to scold us for being home late from lodge, no person to cure a whoop whether we come home or not, now that the hours is ripe for a riotous time,—what happens, why we get to sleep at 8.30 or more off to bed thinking that a bachelor's life after all is not what it is cracked up to be.

#### EXCEL ITEMS

Pte Melvin Edstrom, who has been overseas for the past year returned to his home last Thursday.

Wm. Davidson, R.Q.M.S., left Friday morning for Seattle, Wash.

Jas. Gainer and family are spending two weeks holiday at Banff. They left by motor last Saturday.

The executive of the Excel U.F.W.A., Junior met at the home of Florence Howie last Friday when a very interesting meeting was held.

The next meeting of the Excel U.F.W.A. will meet on Aug. 21st at the home of Mrs. H. A. Hove of Excel at 2.30 sharp. All members please attend.

A surprise party was given at the home of M. Edstrom last Saturday evening when about fifty of his neighbors assembled to welcome him home. The evening was spent in games and music finishing up with a most dainty and enjoyable supper. A number of guests had considerable trouble getting home as the unexpected rain storm made it bad for the autos to travel without chains.
